

# Whiting ColdSaver Insulated Roll-Up Door

World Class Quality  
Made in the USA.

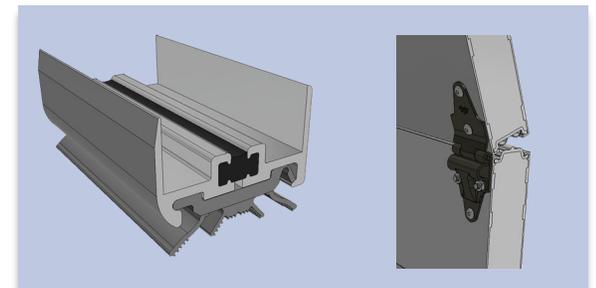

## Whiting Quality roll-up door for temps below 20°F/-7°C

Designed especially for use on trucks and trailers carrying goods at extremely low temperatures. There are no fasteners or aluminum connectors through the door to conduct heat or cold — making it practically maintenance free. The Whiting ColdSaver is a solid 37% more efficient in retaining cold temperatures than any other roll-up door. This results in energy savings and peace of mind shipping your freight.

The Whiting ColdSaver door is engineered for maximum strength and long-term durability making it the leading insulated roll-up door on the market.

## Product Features

- Durable panel system designed to withstand rugged use
- Heavy-duty .070" pre-painted aluminum panels
- Hydro Floral Olefin (HFO) foam core meets all carb standards (environmentally friendly)
- Panels designed with thermal breaks to eliminate heat transfer and also adds structural strength
- Panel joints and door perimeter are double-sealed
- Heavy-duty 5600 bottom roller brackets
- Uses standard Whiting premium door hardware for easy maintenance & replacement
- All door hardware E-coated
- Exterior hardware is top-coated black
- Rigid bottom channel with replaceable seal
- Cosmetically Appealing: Easy to clean & easy to decal

## Additional Available Options
